

KHALED GOUDA

Assiut, Egypt | AI & Machine Learning Student | Badr University in Assiut

SUMMARY

Highly motivated Computer Science & AI student with a GPA of 3.36. Experienced in developing machine learning models and deep learning applications. Proven leadership skills through organizing university technical events and a strong foundation in software engineering and web technologies.

EDUCATION

B.S. in Computer Science & Artificial Intelligence

Badr University in Assiut (BUA)

Expected 2027

Assiut, Egypt

- Cumulative GPA: 3.36 (Completed 50+ credit hours).
- Focus: Machine Learning, Deep Learning, Data Structures, WebGL.

TECHNICAL SKILLS

Languages: Python, C++, JavaScript, HTML/CSS, SQL.

AI/ML: Supervised & Unsupervised Learning, Neural Networks, Image Classification, Object Detection.

Tools & Frameworks: Git/GitHub, WebGL, Shader programming, n8n Automation.

FEATURED PROJECTS

Real-Time Object Detection

- Developed an end-to-end AI model to detect and label objects in real-time video streams.

Real Estate Price Prediction

- Built a predictive regression model using historical data to forecast property values.

Deep Learning Image Classifier

- Implemented a neural network architecture to classify images into multiple predefined categories.

Personal Portfolio Website

- Designed and coded a responsive website with dynamic typewriter effects and dark/light mode toggle.

LEADERSHIP & EXPERIENCE

Lead Organizer - Geek League 2

April 2026

- Structured technical topics and operational plans for the university programming event.
- Managed logistics and coordinated with team members for a successful event delivery.
